DROUGHT CONTINGENCY PLAN

Bolivar Peninsula Special Utility District

Section I: Declaration of Policy, Purpose, and Intent

In order to conserve the available water supply and protect the integrity of water supply facilities, with particular regard for domestic water use, sanitation, and fire protection, and to protect and preserve public health, welfare, and safety and minimize the adverse impacts of water supply shortage or other water supply emergency conditions, the Bolivar Peninsula Special Utility District hereby adopts the following regulations and restrictions on the delivery and consumption of water through a resolution adopted by the Board of Directors on April 12, 2005. Water uses regulated or prohibited under this Drought Contingency Plan (the Plan) are considered to be non-essential and continuation of such uses during times of water shortage or other emergency water supply condition are deemed to constitute a waste of water which subjects the offender(s) to penalties as defined in Section XI of this Plan.

Section II: Public Involvement

Bolivar Peninsula Special Utility District shall actively inform the public and wholesale water customers, if any, and affirmatively provide opportunity for input from the public and from wholesale water customers, if any, regarding the Plan. Such provision includes, but is not limited to, notifying the public and wholesale water customers, if any, of the District's public meeting regarding the proposed Plan, notice of which will be given pursuant to the Open Meetings Act.

Section III: Public Education

The Bolivar Peninsula Special Utility District will periodically provide the public with information about the Plan, including information about the conditions under which each stage of the Plan is to be initiated or terminated and the drought response measures to be implemented in each stage. This information will be provided by means of:

1. Publications of articles in a newspaper or newsletter of general circulation in the District's service area, providing information regarding the Plan and/or information regarding water conservation techniques; and
2. Direct distributions to all District residents and other users of water within the District, and all wholesale water customers of the District, if any, ("Users") explaining the Plan; and
3. Direct distributions to Users of educational and informational material regarding the Plan; and
4. Additional educational activities consisting of (i) conducting an informational school program in a school attended by students within the District's service area, or (ii) conducting an educational program for Users at a public place within or accessible to residents of the District, or (iii) conducting or engaging in such other informational or educational activity designed to further the Plan as, in the discretion of the General Manager, may be consistent with the purposes and policies of this Plan, or (iv) any combination of the foregoing.

Section IV: Coordination with Regional Water Planning Groups

The service area of the Bolivar Peninsula Special Utility District is located within Region H Water Planning Group and Bolivar Peninsula Special Utility District has provided a copy of this Plan to the Region H Water Planning Group.

Section V: Coordination with Lower Neches Valley Authority

All water for the Bolivar Peninsula Special Utility District is supplied through a wholesale treated water contract with the Lower Neches Valley Authority (LNVA). LNVA has implemented its own Drought Contingency Plan that includes water use restrictions that are applicable to its retail and wholesale customers.

The proposed stages and triggering conditions in this Drought Contingency Plan are similar to provisions established by LNVA. The primary responsibility of LNVA is to assure sufficient supplies for its own retail customers. LNVA has assured the Bolivar Peninsula Special Utility District that it can meet its contractual wholesale obligations to the District. However, Bolivar Peninsula Special Utility District requires its customers to impose water use restrictions equal to or greater than those imposed by the LNVA. In addition, the LNVA's drought regulations solicit its wholesale customers to enforce similar standards and procedures in their water systems.

Section VI: Authorization

The General Manager or his/her designee is hereby authorized and directed to implement the applicable provisions of this Plan upon determination that such implementation is necessary to protect public health, safety, and welfare. The General Manager or his/her designee shall have the authority to initiate or terminate drought or other water supply emergency response measures as described in this Plan.

Section VII: Application

The provisions of this Plan shall apply to all persons, customers, and property utilizing water provided by the Bolivar Peninsula Special Utility District. The terms "person" and "customer" as used in the Plan include individuals, corporations, partnerships, associations, and all other legal entities.

Section VIII: Definitions

For the purposes of this Plan, the following definitions shall apply:

1. Aesthetic water use: water use for ornamental or decorative purposes such as fountains, reflecting pools, and water gardens.
2. Commercial and institutional water use: water use which is integral to the operations of commercial and non-profit establishments and governmental entities such as retail establishments, hotels and motels, restaurants, and office buildings.
3. Conservation: those practices, techniques, and technologies that reduce the consumption of water, reduce the loss or waste of water, improve the efficiency in the use of water or increase the recycling and reuse of water so that a supply is conserved and made available for future or alternative uses.
4. Construction water use: water used in the process of building or erecting structures, streets, ditches, etc. or water used to prepare a surface for building and/or rehabilitation.

Construction water use may occur through a fixed tap or through a mobile unit that fills at a fixed tap.

5. Customer: any person, company, or organization using water supplied by Bolivar Peninsula Special Utility District.
6. Domestic water use: water use for personal needs or for household or sanitary purposes such as drinking, bathing, heating, cooking, sanitation, or for cleaning a residence, business, industry, or institution.
7. Even number address: street addresses, box numbers, or rural postal route numbers ending in 0, 2, 4, 6, or 8 and locations without addresses.
8. Industrial water use: the use of water in processes designed to convert materials of lower value into forms having greater usability and value.
9. Landscape irrigation use: water used for the irrigation and maintenance of landscaped areas, whether publicly or privately owned, including residential and commercial lawns, gardens, golf courses, parks, and rights-of-way and medians.
10. Non-essential water use: water uses that are not essential nor required for the protection of public, health, safety, and welfare, including:
 - a) irrigation of landscape areas, including parks, athletic fields, and golf courses, except otherwise provided under this Plan;
 - b) use of water to wash any motor vehicle, motorbike, boat, trailer, airplane or other vehicle;
 - c) use of water to wash down any sidewalks, walkways, driveways, parking lots, tennis courts, or other hard-surfaced areas;
 - d) use of water to wash down buildings or structures for purposes other than immediate fire protection;
 - e) flushing gutters or permitting water to run or accumulate in any gutter or street;
 - f) use of water to fill, refill, or add to any indoor or outdoor swimming pools or jacuzzi-type pools;
 - g) use of water in a fountain or pond for aesthetic or scenic purposes except where necessary to support aquatic life;
 - h) failure to repair a controllable leak(s) within a reasonable period after having been given notice directing the repair of such leak(s); and
 - i) use of water from hydrants for construction purposes or any other purposes other than fire fighting.
11. Odd numbered address: street addresses, box numbers, or rural postal route numbers ending in 1, 3, 5, 7, or 9.

Section IX: Criteria for Initiation and Termination of Drought Response Stages

The General Manager or his/her designee shall monitor water supply and/or demand conditions on a monthly basis and shall determine when conditions warrant initiation or termination of each stage of the Plan, that is, when the specified “triggers” are reached. The triggering criteria described below are based on a study and/or statistical analysis of the vulnerability of water sources under drought of record conditions. These Trigger Conditions are for the purpose of responding to, but not limited to, the following situations: (a) reduction in available water supply up to a repeat of the drought of record; (b) water production or distribution system limitations; (c) supply source contamination; or (d) water system outage due to the failure or damage of major water system components (i.e. pumps, tanks, etc.).

Stage 1 Triggers -- MILD Water Shortage Conditions

Requirements for initiation

Customers shall be requested to voluntarily conserve water and adhere to the prescribed restrictions on certain water uses, defined in Section VIII–Definitions. Stage 1 may be initiated if one or more of the following occur:

1. When, pursuant to requirements specified in the Bolivar Peninsula Special Utility District wholesale water purchase contract with Lower Neches Valley Authority, notification is received requesting initiation of Stage 1 of the Drought Contingency Plan.
2. When demand on the District's water supply facilities reaches or exceeds eighty percent (80%) of the production capacity of such facilities for 3 consecutive days, as determined by the District's operator.

Requirements for termination

Stage 1 of the Plan may be rescinded when all of the conditions listed as triggering events have ceased to exist for a period of 3 consecutive days.

Stage 2 Triggers -- MODERATE Water Shortage Conditions

Requirements for initiation

Customers shall be required to comply with the requirements and restrictions on certain non-essential water uses provided in Section X of this Plan when one or more of the following occur:

1. When, pursuant to requirements specified in the Bolivar Peninsula Special Utility District wholesale water purchase contract with Lower Neches Valley Authority, notification is received requesting initiation of Stage 2 of the Drought Contingency Plan.
2. When demand on the District's water supply facilities reaches or exceeds eighty-five percent (85%) of the production capacity of such facilities for 3 consecutive days, as determined by the District's operator.

Requirements for termination

Stage 2 of the Plan may be rescinded when all of the conditions listed as triggering events have ceased to exist for a period of 3 consecutive days. Upon termination of Stage 2, Stage 1 becomes operative.

Stage 3 Triggers – SEVERE Water Shortage Conditions

Requirements for initiation

Customers shall be required to comply with the requirements and restrictions on certain non-essential water uses for Stage 3 of this Plan when one or more of the following occur:

1. When, pursuant to requirements specified in the Bolivar Peninsula Special Utility District wholesale water purchase contract with Lower Neches Valley Authority, notification is received requesting initiation of Stage 3 of the Drought Contingency Plan.

2. When demand on the District's water supply facilities reaches or exceeds ninety percent (90%) of the production capacity of such facilities for 3 consecutive days, as determined by the District's operator.

Requirements for termination

Stage 3 of the Plan may be rescinded when all of the conditions listed as triggering events have ceased to exist for a period of 3 consecutive days. Upon termination of Stage 3, Stage 2 becomes operative.

Stage 4 Triggers -- CRITICAL Water Shortage Conditions

Requirements for initiation

Customers shall be required to comply with the requirements and restrictions on certain non-essential water uses for Stage 4 of this Plan when one or more of the following occur:

1. When, pursuant to requirements specified in the Bolivar Peninsula Special Utility District wholesale water purchase contract with Lower Neches Valley Authority, notification is received requesting initiation of Stage 3 of the Drought Contingency Plan.
2. When demand on the District's water supply facilities reaches or exceeds ninety-five percent (95%) of the production capacity of such facilities for 3 consecutive days, as determined by the District's operator.

Requirements for termination

Stage 4 of the Plan may be rescinded when all of the conditions listed as triggering events have ceased to exist for a period of 3 consecutive days. Upon termination of Stage 4, Stage 3 becomes operative.

Stage 5 Triggers -- EMERGENCY Water Shortage Conditions

Requirements for initiation

Customers shall be required to comply with the requirements and restrictions for Stage 5 of this Plan when the General Manager or his/her designee determines that a water supply emergency exists based on:

1. Major water line breaks, or pump or system failures occur, which cause unprecedented loss of capability to provide water service; or
2. Notification is provided by LNVA to the Bolivar Peninsula Special Utility District that they have encountered a major system failure which may cause unprecedented loss of capability to provide water service; or
3. Natural or man-made contamination of the water supply source.

Requirements for termination

Stage 5 of the Plan may be rescinded when all of the conditions listed as triggering events have ceased to exist for a period of 7 consecutive days.

Section X: Drought Response Stages

The General Manager or his/her designee, shall monitor water supply and/or demand conditions on a daily basis and, in accordance with the triggering criteria set forth in Section IX of this Plan, shall determine that a mild, moderate, severe, critical, emergency or water shortage condition exists and shall implement the following notification procedures:

Notification of the Public: The General Manager or his/her designee shall notify the public by means of any combination of the following:

1. dissemination of press releases to the local news media,
2. direct mail to each customer,
3. public service announcements,
4. signs posted in public places, and/or
5. posting of signs at the entrances to the District.

Notices issued shall contain (i) the date the Drought Response Measures will begin, (ii) the date the Drought Response Measures will terminate, if known, (iii) a list of Drought Response Measures to be implemented, and (iv) an explanation of penalties for violations of such Drought Response Measures.

Additional Notification: The General Manager or his/her designee shall notify directly, or cause to be notified directly, the following individuals and entities:

1. President and members of the Board of Directors (Severe and/or Emergency)
2. Fire Chiefs of each Volunteer Fire Department (Severe and/or Emergency)
3. County Emergency Management Coordinator (Critical and/or Emergency)
4. County Commissioner (Critical and/or Emergency)
5. Texas Dept. of Public Safety (District entrance signs) (Critical and/or Emergency)
6. Critical water users (Critical and/or Emergency)
7. Major water users (Critical and/or Emergency)
8. TCEQ (required for: Moderate, Severe, Critical, Emergency)

Stage 1 Response -- MILD Water Shortage Conditions

Target: Achieve a voluntary five percent (5%) reduction in total water use.

Best Management Practices for Supply Management:

The following measures will be implemented directly by Bolivar Peninsula Special Utility District to manage limited water supplies and/or reduce water demand: reduce or discontinue flushing of water mains, careful monitoring of system to prevent tank overflows and/or to quickly repair line breaks.

Voluntary Water Use Restrictions for Reducing Demand:

1. Water customers are requested to voluntarily limit the irrigation of landscaped areas to Sundays and Thursdays for customers with a street address ending in an even number (0, 2, 4, 6 or 8), and Saturdays and Wednesdays for water customers with a street address ending in an odd number (1, 3, 5, 7 or 9), and to irrigate landscapes only between the hours of midnight and 10:00 a.m. and 8:00 p.m. to midnight on designated watering days.

2. All operations of the Bolivar Peninsula Special Utility District shall adhere to water use restrictions prescribed for Stage 2 of the Plan.
3. Water customers are requested to practice water conservation and to minimize or discontinue water use for non-essential purposes.

Stage 2 Response -- MODERATE Water Shortage Conditions

Target: Achieve a ten percent (10%) reduction in total water use.

Best Management Practices for Supply Management:

The following measures will be implemented directly by Bolivar Peninsula Special Utility District to manage limited water supplies and/or reduce water demand: reduce or discontinue flushing of water mains, careful monitoring of system to prevent tank overflows and/or to quickly repair line breaks.

Water Use Restrictions for Demand Reduction:

Under threat of penalty for violation, the following water use restrictions shall apply to all persons:

1. Irrigation of landscaped areas with hose-end sprinklers or automatic irrigation systems shall be limited to Sundays and Thursdays for customers with a street address ending in an even number (0, 2, 4, 6 or 8), and Saturdays and Wednesdays for water customers with a street address ending in an odd number (1, 3, 5, 7 or 9), and irrigation of landscaped areas is further limited to the hours of 12:00 midnight until 10:00 a.m. and between 8:00 p.m. and 12:00 midnight on designated watering days. However, irrigation of landscaped areas is permitted at anytime if it is by means of a hand-held hose, a faucet filled bucket or watering can of five (5) gallons or less, or drip irrigation system.
2. Use of water to wash any motor vehicle, motorbike, boat, trailer, airplane or other vehicle is prohibited except on designated watering days between the hours of 12:00 midnight and 10:00 a.m. and between 8:00 p.m. and 12:00 midnight. Such washing, when allowed, shall be done with a hand-held bucket or a hand-held hose equipped with a positive shutoff nozzle for quick rises. Vehicle washing may be done at any time on the immediate premises of a commercial car wash or commercial service station. Further, such washing may be exempted from these regulations if the health, safety, and welfare of the public is contingent upon frequent vehicle cleansing, such as garbage trucks and vehicles used to transport food and perishables.
3. Use of water to fill, refill, or add to any indoor or outdoor swimming pools, wading pools, or jacuzzi-type pools is prohibited except on designated watering days between the hours of 12:00 midnight and 10:00 a.m. and between 8 p.m. and 12:00 midnight.
4. Operation of any ornamental fountain or pond for aesthetic or scenic purposes is prohibited except where necessary to support aquatic life or where such fountains or ponds are equipped with a recirculation system.
5. Use of water from hydrants shall be limited to fire fighting, related activities, or other activities necessary to maintain public health, safety, and welfare, except that use of water from designated fire hydrants for construction purposes may be allowed under special permit from the Bolivar Peninsula Special Utility District.

6. Use of water for the irrigation of golf course greens, tees, and fairways is prohibited except on designated watering days between the hours 12:00 midnight and 10:00 a.m. and between 8 p.m. and 12:00 midnight. However, if the golf course utilizes a water source other than that provided by the Bolivar Peninsula Special Utility District, the facility shall not be subject to these regulations.
7. All restaurants are prohibited from serving water to patrons except upon request of the patron.
8. The following uses of water are defined as non-essential and are prohibited:
 - a) wash down of any sidewalks, walkways, driveways, parking lots, tennis courts, or other hard-surfaced areas;
 - b) use of water to wash down buildings or structures for purposes other than immediate fire protection;
 - c) use of water for dust control;
 - d) flushing gutters or permitting water to run or accumulate in any gutter or street; and
 - e) failure to repair a controllable leak(s) within a reasonable period after having been given notice directing the repair of such leak(s).

Stage 3 Response -- SEVERE Water Shortage Conditions

Target: Achieve a twelve and one half percent (12.5%) reduction in total water use.

Best Management Practices for Supply Management:

The following measures will be implemented directly by Bolivar Peninsula Special Utility District to manage limited water supplies and/or reduce water demand: reduce or discontinue flushing of water mains, careful monitoring of system to prevent tank overflows and/or to quickly repair line breaks.

Water Use Restrictions for Demand Reduction:

All requirements of Stage 2 shall remain in effect during Stage 3 except:

1. Irrigation of landscaped areas shall be limited to designated watering days between the hours of 12:00 midnight and 10:00 a.m. and between 8 p.m. and 12:00 midnight and shall be by means of hand-held hoses, hand-held buckets, drip irrigation, or permanently installed automatic sprinkler system only. The use of hose-end sprinklers is prohibited at all times.
2. The watering of golf course tees is prohibited unless the golf course utilizes a water source other than that provided by Bolivar Peninsula Special Utility District.
3. The use of water for construction purposes from designated fire hydrants under special permit is to be discontinued.

Stage 4 Response -- CRITICAL Water Shortage Conditions

Target: Achieve a fifteen percent (15%) reduction in total water use.

Best Management Practices for Supply Management:

The following measures will be implemented directly by Bolivar Peninsula Special Utility District to manage limited water supplies and/or reduce water demand: reduce or discontinue flushing of water mains, careful monitoring of system to prevent tank overflows and/or to quickly repair line breaks.

Water Use Restrictions for Reducing Demand: All requirements of Stage 2 and 3 shall remain in effect during Stage 4 except:

1. Irrigation of landscaped areas shall be limited to designated watering days between the hours of 6:00 a.m. and 10:00 a.m. and between 8:00 p.m. and 12:00 midnight and shall be by means of hand-held hoses, hand-held buckets, or drip irrigation only. The use of hose-end sprinklers or permanently installed automatic sprinkler systems are prohibited at all times.
2. Use of water to wash any motor vehicle, motorbike, boat, trailer, airplane or other vehicle not occurring on the premises of a commercial car wash and commercial service stations and not in the immediate interest of public health, safety, and welfare is prohibited. Further, such vehicle washing at commercial car washes and commercial service stations shall occur only between the hours of 6:00 a.m. and 10:00 a.m. and between 6:00 p.m. and 10 p.m.
3. The filling, refilling, or adding of water to swimming pools, wading pools, and jacuzzi-type pools is prohibited.
4. Operation of any ornamental fountain or pond for aesthetic or scenic purposes is prohibited except where necessary to support aquatic life or where such fountains or ponds are equipped with a recirculation system.
5. No application for new, additional, expanded, or increased-in-size water service connections, meters, service lines, pipeline extensions, mains, or water service facilities of any kind shall be approved, and time limits for approval of such applications are hereby suspended for such time as this drought response stage or a higher-numbered stage shall be in effect.

Stage 5 Response -- EMERGENCY Water Shortage Conditions

Target: Achieve a minimum fifteen percent (15%) reduction in total water use.

Best Management Practices for Supply Management:

The following measures will be implemented directly by Bolivar Peninsula Special Utility District to manage limited water supplies and/or reduce water demand: reduce or discontinue flushing of water mains, careful monitoring of system to prevent tank overflows and/or to quickly repair line breaks, and notify the public and enforcement agencies of the immediate need for water use reduction.

Water Use Restrictions for Reducing Demand. All requirements of Stage 2, 3, and 4 shall remain in effect during Stage 5 except:

1. Irrigation of landscaped areas is absolutely prohibited.

2. Use of water to wash any motor vehicle, motorbike, boat, trailer, airplane or other vehicle is absolutely prohibited.

Section XI: Enforcement

1. No person shall knowingly or intentionally allow the use of water from the Bolivar Peninsula Special Utility District for residential, commercial, industrial, agricultural, governmental, or any other purpose in a manner contrary to any provision of this Plan, or in an amount in excess of that permitted by the drought response stage in effect at the time pursuant to action taken by General Manager or his/her designee, in accordance with provisions of this Plan.
2. Any person who violates this Plan is guilty of a misdemeanor and, upon conviction shall be punished by a fine of not less than five-hundred dollars (\$500.00) and not more than two-thousand dollars (\$2000.00).
3. Each day that one or more of the provisions in this Plan is violated shall constitute a separate offense. If a person is convicted of three or more distinct violations of this Plan, the General Manager shall, upon due notice to the customer, be authorized to discontinue water service to the premises where such violations occur. Services discontinued under such circumstances shall be restored only upon payment of a re-connection charge, hereby established at \$500.00, and any other costs incurred by the Bolivar Peninsula Special Utility District in discontinuing service. In addition, suitable assurance must be given to the General Manager that the same action shall not be repeated while the Plan is in effect. Compliance with this plan may also be sought through injunctive relief in the district court.
4. Any person, including a person classified as a water customer of the Bolivar Peninsula Special Utility District, in apparent control of the property where a violation occurs or originates shall be presumed to be the violator, and proof that the violation occurred on the person's property shall constitute a rebuttable presumption that the person in apparent control of the property committed the violation, but any such person shall have the right to show that he/she did not commit the violation. Parents shall be presumed to be responsible for violations of their minor children and proof that a violation, committed by a child, occurred on property within the parents' control shall constitute a rebuttable presumption that the parent committed the violation, but any such parent may be excused if he/she proves that he/she had previously directed the child not to use the water as it was used in violation of this Plan and that the parent could not have reasonably known of the violation.
5. Any employee of the Bolivar Peninsula Special Utility District and/or police officer may issue a citation to a person he/she reasonably believes to be in violation of this Ordinance. The citation shall be prepared in duplicate and shall contain the name and address of the alleged violator, if known, the offense charged, and shall direct him/her to appear in Justice of the Peace Court No. 9 on the date shown on the citation for which the date shall not be less than 3 days nor more than 5 days from the date the citation was issued. The alleged violator shall be served a copy of the citation. Service of the citation shall be complete upon delivery of the citation to the alleged violator, to an agent or employee of a violator, or to a person over 14 years of age who is a member of the violator's immediate family or is a resident of the violator's residence. The alleged violator shall appear in Justice of the Peace Court No. 9 to enter a plea of guilty or not guilty for the

violation of this Plan. If the alleged violator fails to appear in Justice of the Peace Court No. 9, a warrant for his/her arrest may be issued. A summons to appear may be issued in lieu of an arrest warrant. These cases shall be expedited and given preferential setting in Justice of the Peace Court No. 9 before all other cases.

Section XII: Variances

1. The General Manager or his/her designee, may, in writing, grant temporary variance for existing water uses otherwise prohibited under this Plan if it is determined that failure to grant such variance would cause an emergency condition adversely affecting the health, sanitation, or fire protection for the public or the person requesting such variance and if one or more of the following conditions are met:
2. Compliance with this Plan cannot be technically accomplished during the duration of the water supply shortage or other condition for which the Plan is in effect.
3. Alternative methods can be implemented which will achieve the same level of reduction in water use.
4. Persons requesting an exemption from the provisions of this Ordinance shall file a petition for variance with the Bolivar Peninsula Special Utility District within 5 days after the Plan or a particular drought response stage has been invoked. All petitions for variances shall be reviewed by the General Manager or his/her designee, and shall include the following:
 - a) Name and address of the petitioner(s).
 - b) Purpose of water use.
 - c) Specific provision(s) of the Plan from which the petitioner is requesting relief.
 - d) Detailed statement as to how the specific provision of the Plan adversely affects the petitioner or what damage or harm will occur to the petitioner or others if petitioner complies with this Drought Contingency Plan.
 - e) Description of the relief requested.
 - f) Period of time for which the variance is sought.
 - g) Alternative water use restrictions or other measures the petitioner is taking or proposes to take to meet the intent of this Plan and the compliance date.
 - h) Other pertinent information.
5. Variances granted by the Bolivar Peninsula Special Utility District shall be subject to the following conditions, unless waived or modified by the General Manager or his/her designee:
 - a) Variances granted shall include a timetable for compliance.
 - b) Variances granted shall expire when the Plan is no longer in effect, unless the petitioner has failed to meet specified requirements.
 - c) No variance shall be retroactive or otherwise justify any violation of this Plan occurring prior to the issuance of the variance.
