

BOIL WATER NOTIFICATION

BOLIVAR PENINSULA SPECIAL UTILITY
DISTRICT Public Water System I.D. No. 0840044

Effective April 7, 2021

Due to a leak on our 12” line in Port Bolivar, the Texas Commission on Environmental Quality has required Bolivar Peninsula Special Utility District to notify all customers to boil their water prior to consumption. To ensure destruction of all harmful bacteria and other microbes, water for drinking, cooking, and ice making should be boiled and cooled prior to consumption. The water should be brought to a vigorous rolling boil and then boiled for two minutes. In lieu of boiling, you may purchase bottled water or obtain water from some other suitable source. When it is no longer necessary to boil the water, water system officials will notify you.

If you have questions regarding this matter you may contact: Our office at (409) 684-3515
